TESTIMONIALS

"As Team Manager of FC Porto, the sensations were all positive. From the beginning, contact with the organization was very easy, something that greatly simplifies the processes to be carried out, and any question was promptly resolved. Regarding the competitive framework and its management, there is also nothing to say. The games started on time, good management of the use of the changing rooms, and the existence of an always updated website with schedules and results also helped a lot. All meals were taken without any problems. For all these reasons I say that the tournament was well organized and that our participation was positive."

João Porto FC Porto

"Our assessment is that it was a well-organized tournament, where the organization complied with all the conditions foreseen. The competitive level was good and we will do everything possible to participate in the next edition to defend the title of champions."
